

Mobile Broadband USB Modem  
MD300 HSDPA/UMTS/EDGE

**Quick Start Guide**

Sony Ericsson

## INTRODUCTION

Thank you for choosing a Sony Ericsson MD300 Mobile Broadband USB Modem. The Wireless Manager application is automatically installed when you plug in the MD300 to your PC. You can connect using HSDPA, UMTS, EDGE and GPRS. You can also send and receive SMS messages. **Note:** Your MD300 does not support GSM or UMTS voice calls.

## BEFORE YOU BEGIN

Wireless Manager works with the following versions of the Windows® operating system:

- Windows 2000 Service Pack 4 (SP4)
- Windows XP Service Pack 2 (SP2); 32-bit (x86) and 64-bit (x64) processors
- Windows Vista™; 32-bit (x86) and 64-bit (x64) processors

Your PC must meet or exceed the minimum system requirements for your version of Windows. In addition, you will need:

- Available USB port on PC or self powered hub
- 110 MB of available disk space
- Your subscription must support Internet access over GPRS/EDGE/UMTS/HSDPA.

## INSTALLING YOUR MD300 AND WIRELESS MANAGER 5

1. Insert your SIM card into the SIM slot on your MD300 until it clicks into place (Figure 1). Make sure the gold contacts on the SIM card are facing the USB plug and the angled corner (A) of the SIM card is placed into the MD300 as shown.
2. Plug your MD300 into a USB port on your PC (Figure 2).

**Important:** Do not subject the MD300 to any pressure, such as supporting the weight of your laptop (Figure 3), instead use the extension cable (Figure 4).

3. After a few seconds, the Sony Ericsson MD300 dialog box opens. Select **Install Wireless Manager**.

**Note:** If the Sony Ericsson MD300 dialog box fails to appear, open Windows Explorer, navigate to My Computer, find the disk drive called Sony Ericsson MD300 and double-click Setup.exe in the INSTALL folder.

4. The software installation procedure starts. Follow the on-screen instructions.

**Important:** The installation process might pause for several minutes. During this time the drivers are saved to your hard drive. DO NOT cancel.

**Note:** Wireless Manager is installed in the same language as your Windows operating system. If Wireless Manager does not support your language, English is installed.

5. When installation is complete, click **Finish**.
6. Unplug the MD300, wait 10 seconds and plug it back in.
7. Once you receive the Hardware Ready message, your MD300 and Wireless Manager are now installed and ready for use.

**Note:** A few PCs cannot provide sufficient current through one USB port, in which case the MD300 will fail to start or cannot run properly. Use the extension cable and both USB plugs.

## STARTING WIRELESS MANAGER

1. Select **Start → All Programs → Sony Ericsson → Wireless Manager 5 → Wireless Manager 5**.
2. Wireless Manager opens. If requested, enter your SIM card PIN, and then click **OK**.
3. Click the **Enable** button to turn on the radio transmitter. After a short delay your signal strength and the name of your network operator are displayed in the Status window.

## CREATING A CONNECTION PROFILE

Wireless Manager should identify your network operator from the information in your SIM card and automatically configure your Internet connection. The **Connect** button will be ready for you to click and make a connection.

If you see a 'No Connection Profile' message or if you wish to define your connection manually:

1. From the Wireless Manager window, select **View → Settings** and click on **Profiles**.
2. Un-check the **Let Wireless Manager Choose the Connection Profile** check box and click the **New** button.
3. Enter the necessary information and click **OK**. Press F1 if you need help.

## USING A CONNECTION

1. Start Wireless Manager.
2. Click the **Connect** button or right-click the status icon  and select **Connect**.
3. To end the connection, click **Disconnect** or right-click the status icon  and select **Disconnect**.

## WIRELESS MANAGER STATUS ICON

The Wireless Manager status icon  is displayed in the Windows notification area located in the lower right-hand corner of the screen, by the clock.

The icon displays the status of your MD300, typically the signal strength on a scale of zero to five bars and the type of network available. The most common states are:

-  The MD300 has mobile network service of type **HSDPA**, **UMTS**, **EDGE** or **GPRS**.
-  The MD300 is searching for a network.
-  Radio is disabled. Right-click and select **Enable Radio** to turn it on.
-  Wireless Manager is waiting for your MD300 to be inserted.
-  Wireless Manager is waiting for you to enter your SIM PIN code.

## DISABLING THE RADIO AND EXITING WIRELESS MANAGER

To disable the radio, right-click  or select **Radio → Disable Radio**.

To exit Wireless Manager, select **Radio → Exit** or right-click the status icon  and select **Exit**.

## FURTHER WIRELESS MANAGER AND MD300 FEATURES

You can also use Wireless Manager to view and change settings , work with the SIM phone book , send and receive SMS messages  and access PlayNow™ . Press F1 or click Help for detailed information. You can also use your MD300 as a flash memory drive to store and transport files – go to **Settings → Flash Memory Drive**.

## ADDITIONAL RESOURCES

Click **Start → All Programs → Sony Ericsson → Wireless Manager 5 → MD300 User Guide** to access the *MD300 User Guide*.

You can download Wireless Manager for manual installation and obtain the latest information, updates and a printable *Wireless Manager User Guide* from the Sony Ericsson web site: [www.sonyericsson.com/support](http://www.sonyericsson.com/support)

## SERVICE AND SUPPORT

Purchasing an MD300 gives you access to a number of exclusive advantages such as global and local web site support, a global network of call centers, and an extensive global network of Sony Ericsson service partners.

The terms and conditions of your Sony Ericsson warranty are listed in the User Guide and also available on the web at [www.sonyericsson.com/support](http://www.sonyericsson.com/support). Save your original proof of purchase, you will need it for warranty repair claims.

In the unlikely event your product needs service, please return it to the dealer from whom it was purchased or one of our service partners. For more information, go to [www.sonyericsson.com/support](http://www.sonyericsson.com/support) or contact our call center. The phone numbers and e-mail addresses are listed on the back page of this guide. If your country/region is not represented on the list, please contact your local dealer.

The caller will be charged according to national rates, including local taxes, unless the phone number is a toll-free number.
